

CLAY ART lays a strong foundation of critical thinking with fundamental skills in problem solving with visualization. Making learning of subjects like languages, Maths and Science, exciting and fun, instilling these skills and confidence longer in memory.

Advantages of Clay Art

Cognitive: Learning about proportion, space and shape created with clay

Socio-emotional development: Working with clay enables the child to express his emotions and share thoughts through art Physical/Motor skills development: By using muscles to mould/shape his clay creation, these action fine-tunes muscles which sharpens the dexterity of fingers

- Shapes + Sizes = SURPRISES!

About Clay Art Trainer – Nancy Pey

With 14 years of experience under her belt working with art and children, Ms Nancy Pey is equipped with the skills and techniques, passion and understanding.

Other than teaching children personally, her strength also comes in fine art and sculpture teaching, designing of course, training of teachers and self creation.

Ms Nancy Pey has brought her art pieces across the globe - Taiwan, Hong Kong, Japan but has also been invited to grace her prestigious exhibitions. She is also a AMIS trainer to Ministry of Education (MOE) and a Padico Clay Trainer, Japan.
