

LYRA

2009

since

1806

Conserve, change, grow! These have been the principles guiding our actions over the last few decades.

2008 brought fundamental change to LYRA.

The order of those sentiments is now

... change in an effort to conserve and ultimately grow.

Change

In the summer of 2008, the owners of Johann Froescheis Lyra-Bleistift-Fabrik GmbH & Co. KG sold their interest in the company to the Italian company Fabbrica Italiana Lapis ed Affini S.p.A. (FILA). An independent family-owned company – in business for over 202 years – joins an internationally active group of companies from our industry. FILA, a family-owned business, is a symbol for creativity and quality “Made in Italy”. Their business strategy over the last few years has been marked by dynamic growth, innovative products and a worldwide presence.

Conservation

With this integration into increasingly globalized markets, LYRA will remain competitive in the future as well. Cooperation with a strategic partner enables us to stay in business long-term and to conserve the traditional LYRA brand. In the future, we will therefore be able to play an important role in international markets.

Growth

As an internationally operating group, both companies can make joint use of the synergies now available in manufacturing, marketing and sales. Thanks to LYRA, FILA products will have access to markets they had hardly penetrated previously. LYRA will also be able to use FILA distribution in strong FILA markets, enabling greater promotion of the LYRA brand. Across the globe, customers can benefit from a more extensive selection of products.

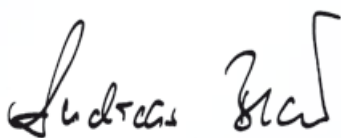

You will already see the first signs of our future cooperation with FILA in this catalogue. We are still in a transitional phase of course, but we are already able to share some exclusive FILA product highlights with you today. DAS modeling clay and Robercolor blackboard chalks are brands that are well-known throughout the world. And for young children there's Giotto be-bè – a unique line of products especially studied for toddlers.

However, we also want to share two exciting new LYRA products with you: GROOVE and COLORSTRIPE.

“Feel the Groove“, “Hold it right from the start“.

COLORSTRIPE “In a class of its own“, “A simple but very effective idea”

Over the following pages, we invite you to explore the new and attractive FILA products we now offer. We also hope you'll share our excitement about our unique GROOVE and COLORSTRIPE products.

GIOTTO be-bè

+2

A complete range of products for painting and creativity for small children more than 2 years old. All products have been developed together with mothers to suit the requirements of our smallest. For example the funny and colourful packaging can be opened very simple and closed again. GIOTTO be-bè products are in compliance with CE standard. They fulfil all requirements for safety of toys. Small parts that could be swallowed are fixed to the product and cannot be removed. Furthermore only parts suitable for children are used in the sets.

Advantage for children:

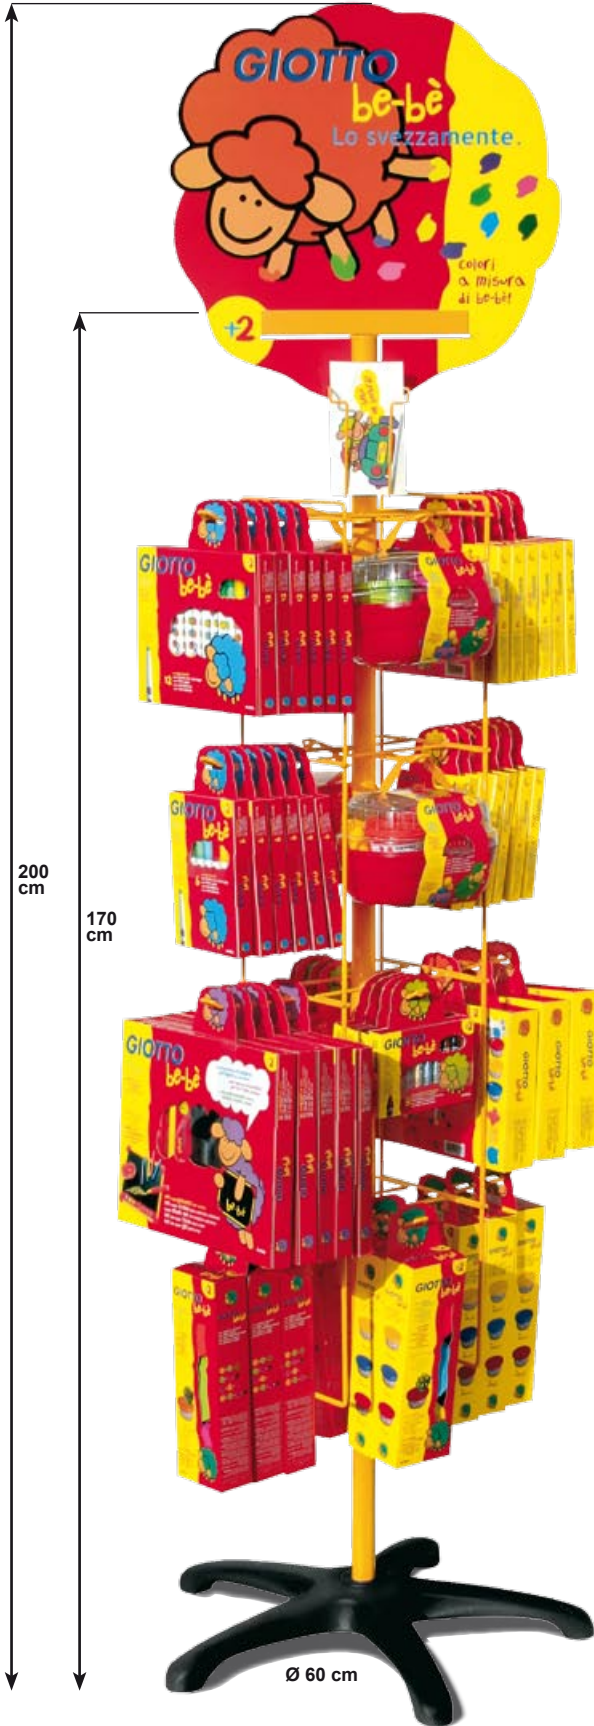

- ✓ easy handling
- ✓ bright colours
- ✓ learning by playing

Advantage for parents:

- ✓ safe products
- ✓ washable from hands and textiles
- ✓ dermatologically tested

SKIN TONES

We believe that despite many shades of skin colours all humans are equal. To reflect this in painting we have created an assortment of the 12 most prominent skin tones of the people of our world. This assures that they can be pictured in the true colour of their skin without discrimination.

Gouache-/ Tempera Colours

- ✓ Water-soluble opaque and poster colours for use in schools, kindergarten and for any creative work
- ✓ The colours can be applied undissolved to cover opaque or built structures and if thinned with water can achieve aquarelle like features
- ✓ The colours are intensive and opaque and when dry they are wipe-resistant and allow layer upon layer, yet remain water-soluble

Artist material for the highest demand:

A comprehensive programme of high quality artist pencils and crayons. From the REMBRANDT AQUARELL, the aquarelle pencils of finest quality, LYRA AQUACOLOR, the completely dissolvable aquarelle crayon, and AQUA BRUSH DUO, the water-based layout-pen with brush nib, to the REMBRANDT POLYCOLOR, the permanent artist coloured pencil together with REMBRANDT SPLENDER, the burnishing pencil and POLYCRAYONS soft, the pastel stick, and the monochrome art material in wood-cased or crayon shape. The finely tuned colour range of REMBRANDT POLYCOLOR, REMBRANDT AQUARELL, LYRA AQUACOLOR and AQUA BRUSH DUO are adjusted to run parallel and are marked with an unique colour code system. Valuable mahogany coloured wooden boxes and metal boxes create a suitable frame for this top-class assortment of artist material.

REMBRANDT AQUARELL

REMBRANDT AQUARELL coloured pencils offer 72 distinctive shades for the artist who requires pencils of a very high standard.

The finest pigments in the coloured leads (4 mm diameter) can be dissolved almost completely with water. REMBRANDT AQUARELL artists' coloured pencils allow fascinating ways to create art from opaque colours to almost transparent shades. Blending allows lines and shaded areas to be created easily with a brush dipped in water.

The brilliance and lightfastness of the colour is of the highest possible standard.

REMBRANDT POLYCOLOR

REMBRANDT POLYCOLOR, the top quality artists' pencil for artists, graphic artists, designers and architects etc. A choice of 78 colours allows the user to fully explore his creativity. This outstanding selection offers the widest possible colour range, from strong, full tones to the most delicate nuances. Their brilliance, light and water resistance and the particular smoothness of the leads meet the highest demands. REMBRANDT POLYCOLOR artists' pencils enable the user to achieve fine, exact contours, as well as brilliantly coloured areas and delicate merges. Apart from use on paper and cardboard, the colours can also be applied to synthetic materials, wood and textiles.

AQUA BRUSH DUO

AQUA BRUSH DUO is a pen with a brush-on effect especially made for artists, designers and also suitable for hobby painters.

The tips are extremely stable. There is a broad tip on one side which allows brush-like techniques. Fine lines and drawings are easy to do with the tip on the other side of the AQUA BRUSH DUO.

This way pictures, layouts etc. can be done in a perfect way. The ink is water-based.

REMBRANDT SLENDER

This pencil is special. The benefits of REMBRANDT SLENDER can best be seen in a coloured drawing, using REMBRANDT POLYCOLOR. At first one should work on various coloured areas to learn about the property of the SLENDER. As the colour chart shows, four colours have been applied working from left to right, applying full colour on the left with reduced colour application to the right. The lower half has then been worked over with the SLENDER which has been applied like a colouring pencil over the coloured areas. A little bit of pressure is necessary. After application one achieves a result from a dense colour to a reduced area which has a glossy surface. This is why the name SLENDER comes from splendid. The same results can be achieved with mixed colours i.e. blue and red equal violet. The type and quality of paper used is very important.

PRO NATURA MULTISYSTEM

LYRA MULTISYSTEM has been developed particularly for the retail trade and allows a perfect presentation of LYRA-products. It offers the ultimate flexibility through its modular system which fits all products. The LYRA MULTISYSTEM, made of solid beechwood, suits all shelf systems built according to the standard width of 48 cm, and offers a maximum turnover on a minimum of floor space. Result: Maximum turnover on a minimum of space.
